Art Unit: 1632

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-26 and 42-50, drawn to isolated Ikaros transcriptional control regions, transgenic animals, cells or tissues from the animal comprising a transgene including an Ikaros control region and a method to evaluate the development of a component or cell lineage of the immune system, classified in class 800, subclass 3, as an example.
- II. Claims 1-11 and 27-50, drawn to isolated Ikaros transcriptional control regions, transgenic animals, cells or tissues from the animal comprising a transgene including an Ikaros control region, and also comprising a disruption of at least one exon of an endogenous gene encoding a protein involved in hematopoiesis and a method to evaluate the development of a component or cell lineage of the immune system, classified in class 800, subclass 3.

The inventions are distinct, each from the other because:

Inventions I and II are distinct products because invention I can be used alone as an assay to determine those compounds or agents that affect Ikaros transcriptional region activity, and invention II can be used as a therapy model to determine those compounds or agents that correct defects in hematopoietic cell development. Further, neither product is need for the other's implementation.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1632

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
